R. E. Knight & Son,  
621 4th St. N.E.

Alexandria, Va., July 8.—Many members of the Old Dominion Boat Club tonight are suffering from sore hands, and frequent applications of cold cream and other lotions are being used to alleviate the pain brought about by endeavoring to paint their clubhouse today while the thermometer flirted above the ninety mark.

The work was inaugurated by means of the forming among its fifty-first members of what is known as the "Co-operative Paint Club." Those who did not join in the actual work of painting the clubhouse, which is 90 by 35 feet, situated on the river front, donated paints and brushes. At any rate, about twenty-five of its members tried their hand at painting, and considerable work was accomplished. The members discarded coats, shirts, and ties, and in some instances donned overalls.

The work was started along with other improvements contemplated by its members and it is hoped to make the clubhouse one of the most attractive in this section before the work is completed.

The color will be gray, with green trimmings and red shades.

PLAN TO AMEND  
SHIPPING BILLLeaders Prepare to Enlist the  
Solid Party Support Be-  
hind Measure.

The Democratic conference of Senators yesterday afternoon agreed on amendments to the ship purchase bill that will make it possible, they believe, to command for it the solid Democratic support of the Senate.

The bill was sent back to the Senate Committee on Commerce to be whipped into shape. The safeguards put into the bill by the party conference will make it impossible for the government to purchase belligerent ships or to acquire ships in the American trade unless they are on the point of being withdrawn.

No ships can be purchased unless they retain 75 per cent of their original efficiency. The conference agreed to a modification of the bill which makes it necessary for the government to make every effort to charter boats before operating them under government control.

On the issue of admitting the purchased ships to participation in the coastwise trade, the conference did not vote, but the discussion showed the sentiment to be evenly divided.

There are many details to be worked out before the bill can be reported. It was the opinion of Democratic leaders, after the conference, that ten days or two weeks would be required to perfect it. The attitude of Republicans who have been fighting the measure will probably be determined at a party conference next week. Republicans have been waiting for the administration Senators to put the bill in shape before considering it. They will probably make a stubborn fight on the ground that it is an impractical and dangerous scheme of government ownership.

Would Like to Arrange for a  
FREE Concert in Your Home

Suppose your neighbors could hear Christine Miller's rich contralto from your veranda tomorrow evening.

They would listen with pleasure. They will listen with equal pleasure to Edison's Re-creation of her voice, as one is indistinguishable from the other.

## The NEW EDISON

—is not a talking machine. It embodies a new art. It actually re-creates music. This has been proven by many of the world's greatest artists.

If Christine Miller, the great concert contralto, stood on your veranda, or near an open window, and sang in direct comparison with Edison's Re-creation of her voice, your neighbors could not distinguish one from the other, nor could you, unless you watched Christine Miller's lips.

Many other artists have sung and played in direct comparison with Edison's Re-creation of their work to prove that his new art re-creates all forms of music with such perfection that the Edison Re-creation cannot be distinguished from the original.

No voice is beyond this new art.

It's easy to possess this "Phonograph with a Soul"—you may have it in your home tomorrow and after that, small partial payments will be accepted.
